

# TAKE RESPONSIBILITY

Create defensible space - in an aspen landscape.

**ASPENS** are a part of your community. The photo above shows a typical landscape where aspens are dominant.

**DEFENSIBLE SPACE** has been created in a similar area, shown in the photo below. The aspens have been well-spaced and limbed. Ground fuels have been trimmed and kept to a minimum.

**WHEN ASSESSING** your property, focus on being able to see lots of ground and daylight between your home and the vegetation that surrounds it, as well as between the vegetation itself.

*This is a cooperative safety program by the Inyo National Forest and the Bishop Field Office of the Bureau of Land Management.*
